WELCOME NEW RADIOLOGISTS

Radiology SA is delighted to welcome the expertise of Dr Leigh Mosel, Dr Ramon Pathi and Dr Chris Whisson. At Radiology SA we take pride in our standards of expertise. Please see over for doctor profiles.

INTERVENTIONAL RADIOLOGY - SPINAL PROCEDURES

Radiology SA provides a diverse range of procedures for the treatment of back pain and radiculopathy. These include targeted foraminal epidural injections, facet joint, median branch block, pars defect injections, vertebroplasty and spinal epidural steroid injections.

Epidural spinal injections are the mainstay of non operative management for painful and symptomatic lumbar disc herniation, degenerative disc and facet joint disease, and lumbar spinal canal stenosis.

These procedures may be done as day case procedures with anaesthetic support if the patient requires.

Please feel free to contact our Radiologists directly on 8402 0200 with any queries.

We are conveniently situated centrally in North Adelaide, please see over for locations.
